We work to influence suppliers’ practices and where gross violations are uncovered; we would attempt to work with the supplier to correct it in the first instance. If it became apparent that the required improvement is not possible, then a review of the trading relationship would be undertaken.

As a business we use Labour Providers to supply a percentage of our workforce. Each Labour Provider is audited against our own Labour Provider audit standard every 6 months. Within these audits, the ETI Base Code and controls around Modern Slavery are reviewed.

We always monitor, assess, and mitigate the potential risk areas in our supply chains and have robust systems in place to deal with such risks. We provide Supplier Self Audit Questionnaires which include an Ethical Section as per below and have recently implemented the use of a software tool called Tracegains across our Supply base. This software allows us to determine when BRC and specifications are due for renewal in advance of the completion date.

- **Whistleblowing policy.** Rich Products Ltd operates a Whistleblowing Policy which encourages all its associates, customers, and other business partners to report any concerns related to the direct activities, or the supply chains of, the organisation. This includes any circumstances that may give rise to an enhanced risk of slavery or human trafficking. Rich Products Ltd.'s whistleblowing procedure is designed to make it easy for associates to make disclosures, without fear of retaliation.

We integrate forced labour policies within our contract and new supplier completion forms through the use of legal clauses and assess and screen those suppliers via the use of our technical approval procedure.

As a minimum requirement, all new suppliers must have BRC Accreditation Grade A, pass our Dun and Bradstreet financial check and must agree to our terms and conditions.

COVID 19 Responses

Supporting suppliers – During this time, to prioritise our engagement with suppliers, where feasible, we have been honouring all supplier orders that have been in the system and in the scenario of late cancellations or orders that are no longer required, we have worked with those suppliers to ensure that the business impact for them has been kept to a minimum. Throughout this time, we have also increased our contact and maintained proactive regular communications with our account managers to keep abreast of any potential forthcoming issues.

Contracts have also been pushed out an extended where possible to accommodate any drops in demand and from a legal perspective we have been working on inserting a clause within our supply contracts so that we can protect ourselves as a business for any similar incidents that may occur in the future.

Policies and procedures – During this time, we continue to ensure that all our associates can access our policies and procedures with ease. Any adapted or new policies/procedures that are put in place are communicated to our associates as soon as possible can be found through the business intranet site or via a member of the People Support Team.

Recruitment - During this time, we are aware that any heightened demand may lead to vulnerable workers being exploited by third parties as a means to seek profit and so we continue to operate a robust recruitment policy/process and provide rigorous checks, including conducting eligibility for right to work in the UK, processing background checks and referencing for all new associates to safeguard them against human trafficking or individuals being forced to work against their will.

Health and Safety of Workers and Emerging Risks - Our Covid-19 risk assessment is reviewed on an ongoing basis to ensure we continue to minimise and prevent the spread of Coronavirus. All our risk assessments throughout the business are regularly reviewed to help us identify any emerging risks and consider which parts of the workforce may be particularly vulnerable. This approach has allowed us to react and mitigate these risks and avoid the spread of the virus amongst our associates through the following actions.

- Social Distancing Measures have been implemented throughout all our business premises involving the installation of new signage identifying clear 2m distancing
- All production associates have attended a full social distancing safety brief outlining the new PPE requirements and the new social distancing rules now in place.
- All associates undergo temperature checking upon arrival on site.
- All associates who are working onsite are provided with PPE, this includes being issued with a new face mask daily and also provided with their own full-face visor.
- Additional physical barriers have been installed where the 2m social distancing is difficult to maintain at all times
- The site is regularly deep cleaned by our own hygiene team

- Associates use different entrances/exits when changing over shifts to avoid any cross over and maintain the 2m social distancing rules
- Internal arrangements have already been executed i.e. increased awareness, promotion of good hygiene practices, posters, installation of new hand sanitisers dispensers etc. These are all measures we have taken within the workplace.
- Our office-based staff are currently operating on a working from home approach and any meetings that take place are done so online via video conferencing.

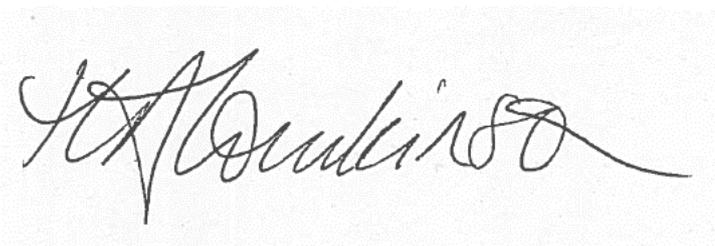

- A new Return to Work safety plan will be delivered to all office workers when the Government guidance changes, and they are allowed back onto the site
- Associates are asked to self-isolate for 10 days when either themselves or a close family member presents any symptoms
- Colleagues returning from travel, either business or personal, are being asked to work from home for 10 days irrespective of symptoms
- Those who are in self-isolation will receive either full pay or Statutory Sick Pay (where in the probationary period) with the 3-day waiting period being waved.
- Our COVID 19 Steering Committee meet weekly to discuss the ongoing situation where the Board of Directors are kept updated on emerging or heightened risks in which the business needs to react to mitigate the risk and spread of the virus amongst workers further.
- We are also working closely with our supply chain to ensure that they have equivalent plans in place, with clear visibility of any potential impacts.

Outside of these arrangements we also adhere and react in accordance with COVID-19: guidance for employers and businesses – GOV.UK
